GRIPPER CHAIN

ACCESSORIES & SPARE PARTS

Your Benefits

- **High transmission capacity (kW rating)**
Strengthened connecting link achieved by ring coining process
- **High fatigue strength**
Shot peening of basic chain parts, high load bearing of bushes and pins
- **High tensile strength**
Pins feature high tensile and shear strength, resistance to bending and endurance against shock and wear
- **High wear resistance**
Advanced lubrication system, cylindrical bushes
- **High price-performance ratio**
Your decision for a GPS Gripper Chain is always a choice for a long-lasting quality at the most favourable price.

APPLICATION

for different types of machines like reisacher, Hajek, GEA, Multivac, Variovac, etc.

GPS-Article	Description	Type
105413	Gripper chain, complete, Single 5/8 x 3/8" /K	Standard nickel plated
119678	Gripper chain, complete Single 5/8 x 3/8" /K hygiene spring	Standard nickel plated
105414	Gripper chain, complete Single 5/8 x 3/8" /K	Stainless Steel
108849	Gripper chain Single 1/2 x 5/16"	Standard nickel plated
144210	Gripper chain, complete Single 5/8 x 3/8" /K hygiene spring	Stainless Steel
